

Peninsula Performance Feeds is a new feed company started by Jackie VandenBrink an Equine Nutritionist with 20 years of feed industry experience. The feeds are designed to the highest nutritional standards and are manufactured by a Canadian owned feed mill that is CFIA and HACCP certified and completely medication free.

elevated fat and fibre levels  
complete vitamin and mineral fortification  
fortified with added vitamin C, and lots of vitamin E  
contains chelated trace minerals including selenium

**Custom formulations also available**

## General Feeding Guidelines:

*Easy Keepers:* Feed **BALANCE** Supplement pellet at 200 grams per 100 kg body weight per day.

*Riding School, Light to Medium Work:* Feed **PERFORM** at a rate of 0.5 to 1.0 kg per 100 kg body weight per horse per day.

*Hard Working Performance Horses:* Feed **EXCEED or FIBRE MAX** at a rate of 0.5 to 1.5 kg per 100 kg body weight per horse per day.

*Growing Horses and Broodmares:* Feed **GROWTH AND DEVELOPMENT** in combination with **BALANCE**. Inquire for detailed feeding instructions according to age and size.

*Senior Horses:* Feed 0.5-1.5 kg per 100 kg body weight of **EXCEED**. Feed along with processed fibre sources such as hay cubes and beet pulp if the horse's ability to chew or digest hay is compromised.

Split concentrates over minimum 2 meals per day, and no more than 2 kg per meal for an average size horse.

Feed along with good quality hay, minimum 1 % bodyweight, but for most horses free choice or 2-2.5 percent bodyweight is appropriate.

	<b>PERFORM</b>	<b>EXCEED</b>	<b>FIBRE-MAX</b>	<b>GR &amp; DEV</b>	<b>BALANCE</b>
Protein %	12	14	13	16	25
